

PRICE LIST 2011
DOCUMENT FINISHING SUPPLIES
Version 2.4

- 
- Things to Do!
1. Pick up plastic coils
C..and wire-o)
 2. Document binding covers!
 3. Order more staples
 4. We need lamination film
 5. CALL SYDNEY STONE
FOR ALL OF THE ABOVE!!

February 2011

Dear Customer,

First we must thank you for taking the time to review our price list. Each year we challenge ourselves to review all our pricing to ensure that we are offering you the best value in the market. Given all the changes in foreign exchange and supply we are extremely proud to offer you a price list that has 85% of our products listed at the same price as last year, and the changes to the other items are mostly incremental.

While price is always important we pride ourselves on providing you the support that you deserve. We do not use an auto attendant service because your business often depends on being able to touch base with us immediately, in these situations going into voicemail jail just doesn't work. With a live person you are able to ask questions, confirm inventory or pricing, place your order and confirm delivery without waiting for days for a phone call back.

Should our Monday – Friday 8:00am-4:30pm (EST) hours not suit your schedule, you can always order online at www.PrintFinishing.com 24/7. Our brand new fully ecommerce website receives many orders per week and showcases all of our products on the supplies and equipment side. Our customers confirm that the website is easy to navigate and placing an order is simple. Of course you can also email your supplies orders to supplies@printfinishing.com as well.

This year we have added a few categories that you may find interesting, such as a wider variety of laminating options and our Pro-Bind thermal binding unit and supplies. As a distributor of Royal Sovereign laminating films, we offer a variety of quality options to choose from that are both cost effective and reliable.

Our new Pro-Bind thermal binding equipment and covers is an alternate to plastic coil, wire-o or plastic comb (cerlox) binding. They provide an exceptionally high quality bind with a truly professional look comparable to perfect binding. The low cost for the equipment and the quick make ready provides a machine that is well suited in the print for pay or in-plant environments. The covers are available in all different colours, textures and finishes enabling you to provide your customers with a high quality product at a price that is of interest to them.

We are always thankful for your business and continued support and look forward to speaking with you soon. Be it a piece of equipment, some supplies or just some advice on how to run a job -we would be pleased to hear from you.

All the best for a successful 2011!

Best Regards,

Dylan Westgate

Michael Steele
